PE Rat IgG2c, kappa monoclonal [SB68b] - Isotype control

Rat IgG2c, kappa isotype control conjugated to PE - suitable for ELISA, flow cytometry. Clone [SB68b] is a rat monoclonal isotype control.

Design your panel with our interactive flow cytometry panel builder. Click here.

Key facts

Isotype	IgG2c
Host species	Rat
Conjugation	PE
Excitation/Emission	Ex: 480;565nm, Em: 578nm
Storage buffer	pH: 7.3 Preservative: 0.1% Sodium azide Constituents: Sucrose, PBS
Form	Liquid
Clonality	Monoclonal
Clone number	SB68b
Purification technique	Affinity purification
Specificity	Keyhole limpet hemocyanin (KLH)
Light chain type	kappa
Concentration	0.1 mg/mL The concentration of this product may be batch-dependent Batch concentration finder →

Reactivity data

Application	ELISA
Reactivity	Expected

Dilution info	-
Notes	-

Application	Flow Cyt
Reactivity	Expected
Dilution info	0.1 µg for 10^6 Cells
Notes	-

Storage

Shipped at conditions	Blue Ice
Appropriate short-term storage conditions	+4°C
Appropriate long-term storage conditions	+4°C
Storage information	Store in the dark

Product promise

Tested

We have tested this species and application combination and it works. It is covered by our product promise.

Expected

We have not tested this specific species and application combination in-house, but expect it will work. It is covered by our product promise.

Predicted

This species and application combination has not been tested, but we predict it will work based on strong homology. However, this combination is not covered by our product promise.

Not recommended

We do not recommend this combination. It is not covered by our product promise.

We are dedicated to supporting your work with high quality reagents and we are here for you every step of the way should you need us.

In the unlikely event of one of our products not working as expected, you are covered by our product promise.
