ab250408

Anti-TMUB2 antibody [EPR13741] - BSA and Azide free

Recombinant | RabMAb

Key facts

Isotype	IgG
Host species	Rabbit
Storage buffer	pH: 7.2 - 7.4 Constituents: PBS
Form	Liquid
Clonality	Monoclonal
Immunogen	The exact immunogen used to generate this antibody is proprietary information.
Carrier free	Yes
Clone number	EPR13741
Purification technique	Affinity purification
Specificity	Based on the sequence analysis, this antibody recognizes 4 isoforms with predicted MW of 34KDa, 32KDa, 19KDa and 10KDa, respectively.

Reactivity data

Target data

See full target information TMUB2

Storage

Shipped at conditions	Blue Ice
Appropriate short-term storage conditions	+4°C
Appropriate long-term storage conditions	+4°C
Storage information	Do Not Freeze

Notes

ab250408 is the carrier-free version of ab181183.

Patented technology

Our RabMAb® technology is a patented hybridoma-based technology for making rabbit monoclonal antibodies. For details on our patents, please refer to RabMAb® patents.

What are the advantages of a recombinant monoclonal antibody?
This product is a recombinant monoclonal antibody, which offers several advantages including:

- High batch-to-batch consistency and reproducibility
- Improved sensitivity and specificity
- Long-term security of supply
- Animal-free batch production

For more information, read more on recombinant antibodies.

Conjugation ready
Our carrier-free antibodies are typically supplied in a PBS-only formulation, purified and free of BSA, sodium azide and glycerol. This conjugation-ready format is designed for use with fluorochromes, metal isotopes, oligonucleotides, and enzymes, which makes them ideal for antibody labelling, functional and cell-based assays, flow-based assays (e.g. mass cytometry) and Multiplex Imaging applications.

Use our conjugation kits for antibody conjugates that are ready-to-use in as little as 20 minutes with 1 minute hands-on-time and 100% antibody recovery: available for fluorescent dyes, HRP, biotin and gold.

Compatibility
This product is compatible with the Maxpar® Antibody Labeling Kit from Fluidigm, without the need for antibody preparation. Maxpar® is a trademark of Fluidigm Canada Inc.

Product promise

Tested

We have tested this species and application combination and it works. It is covered by our product promise.

Expected

We have not tested this specific species and application combination in-house, but expect it will work. It is covered by our product promise.

Predicted

This species and application combination has not been tested, but we predict it will work based on strong homology. However, this combination is not covered by our product promise.

Not recommended

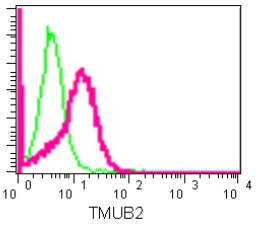

We do not recommend this combination. It is not covered by our product promise.

We are dedicated to supporting your work with high quality reagents and we are here for you every step of the way should you need us.

In the unlikely event of one of our products not working as expected, you are covered by our product promise.

Full details and terms and conditions can be found here:

Flow Cytometry (Intracellular) - Anti-TMUB2 antibody [EPR13741] - BSA and Azide free (ab250408)

TMUB2 Flow Cytometry (Intracellular) staining using rabbit Anti-TMUB2 antibody

This data was developed using ab181183, the same antibody clone in a different buffer formulation.
Intracellular Flow Cytometry analysis of TMUB2 expression in HeLa cells using ab181183 at 1/150 dilution (red) and a rabbit IgG as negative control (green).

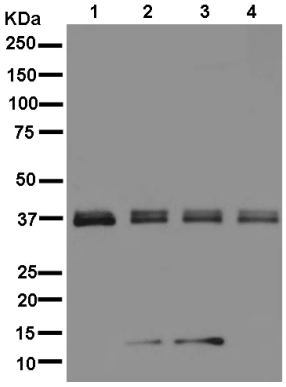

Immunoprecipitation - Anti-TMUB2 antibody [EPR13741] - BSA and Azide free (ab250408)

This data was developed using ab181183, the same antibody clone in a different buffer formulation.
Western blot analysis on immunoprecipitation pellet from HeLa cell lysate (lane 1) or negative control (lane 2), labeling TMUB2 immunoprecipitated using ab181183 at 1/50 dilution and HRP-conjugated anti-rabbit IgG preferentially detecting the non-reduced form of rabbit IgG.

All lanes:
Immunoprecipitation - Anti-TMUB2 antibody [EPR13741] (ab181183)

Predicted band size: 34 kDa

Observed band size: 34 kDa

Western blot - Anti-TMUB2 antibody [EPR13741] - BSA and Azide free (ab250408)

This data was developed using ab181183, the same antibody clone in a different buffer formulation.
All lanes:
Western blot - Anti-TMUB2 antibody [EPR13741] (ab181183) at 1/1000 dilution

Lane 1:
HeLa cell lysate at 20 µg

Lane 2:
HEK293 cell lysate at 20 µg

Lane 3:
HepG2 cell lysate at 20 µg

Lane 4:
A431 cell lysate at 20 µg

Secondary

All lanes:
Goat Anti-Rabbit IgG, (H+L), Peroxidase conjugated at 1/1000 dilution

Predicted band size: 34 kDa

Observed band size: Oct-34 kDa

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
