abcam

ab288534

Anti-DcR1 antibody [B-D44] - BSA and Azide free

Key facts

Isotype	IgG1
Host species	Mouse
Storage buffer	pH: 7.3 - 7.5 Constituents: PBS
Form	Liquid
Clonality	Monoclonal
Immunogen	Recombinant Fragment Protein within Human TNFRSF10C. The exact immunogen used to generate this antibody is proprietary information. Database link O14798
Carrier free	Yes
Clone number	B-D44
Purification technique	Affinity purification Protein A
Light chain type	kappa
Purification notes	Purified from cell culture supernatant

Reactivity data

Flow Cyt

Tested

Species	Human
Dilution info	1/2 - 1/256

Notes	-

Target data

See full target information TNFRSF10C

Function	Receptor for the cytotoxic ligand TRAIL. Lacks a cytoplasmic death domain and hence is not capable of inducing apoptosis. May protect cells against TRAIL mediated apoptosis by competing with TRAIL-R1 and R2 for binding to the ligand.

Storage

Shipped at conditions	Blue Ice
Appropriate short-term storage conditions	+4°C
Appropriate long-term storage conditions	+4°C

Notes

Hybridoma: Myeloma X63/AG.8653 x Balb/c spleen cells.

Product promise

Tested

We have tested this species and application combination and it works. It is covered by our product promise.

Expected

We have not tested this specific species and application combination in-house, but expect it will work. It is covered by our product promise.

Predicted

This species and application combination has not been tested, but we predict it will work based on strong homology. However, this combination is not covered by our product promise.

Not recommended

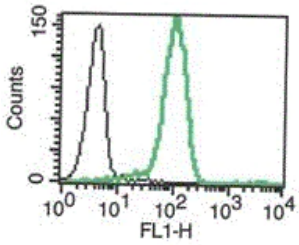

We do not recommend this combination. It is not covered by our product promise.

We are dedicated to supporting your work with high quality reagents and we are here for you every step of the way should you need us.

In the unlikely event of one of our products not working as expected, you are covered by our product promise.

Full details and terms and conditions can be found here:

Flow Cytometry - Anti-DcR1 antibody [B-D44] - BSA and Azide free (ab288534)

DcR1 Flow Cytometry staining using mouse Anti-DcR1 antibody

Flow cytometry overlay histogram of human granulocytes labelling DcR1 with ab288534 at 1/2 – 1/256 dilution (green) compared with an isotype control (black). GAM-FITC at 1/800 dilution was used as the secondary antibody.
