FITC Anti-BAFF-R antibody [11C1]

Key facts

Isotype	IgG1
Host species	Mouse
Conjugation	FITC
Excitation/Emission	Ex: 495nm, Em: 519nm
Storage buffer	pH: 7.4 Preservative: 0.098% Sodium azide Constituents: PBS, 0.2% BSA
Form	Liquid
Clonality	Monoclonal
Clone number	11C1
Purification technique	Size-exclusion chromatography
Specificity	The mouse monoclonal antibody 11C1 recognizes an extracellular epitope of CD268 / BAFF R (B cell-activating factor receptor), a 19 kDa type III transmembrane protein expressed on resting B cells and CD4-positive T cells, but down regulated after activation.
Light chain type	kappa
Purification notes	Purified antibody is conjugated with fluorescein isothiocyanate (FITC) under optimum conditions and unconjugated antibody and free fluorochrome are removed by size-exclusion chromatography.

Reactivity data

Flow Cyt

Tested

Species	Human
Dilution info	-
Notes	Flow cytometry: The reagent is designed for analysis of human blood cells using 4 µl reagent / 100 µl of whole blood or 10^6 cells in a suspension. The content of a vial (0.4 ml) is sufficient for 100 tests.

Target data

See full target information TNFRSF13C

Function	B-cell receptor specific for TNFSF13B/TALL1/BAFF/BLyS. Promotes the survival of mature B-cells and the B-cell response.

Storage

Shipped at conditions	Ambient - Can Ship with Ice
Appropriate short-term storage conditions	+4°C
Appropriate long-term storage conditions	+4°C
Storage information	Do Not Freeze, Store in the dark

Product promise

Tested

We have tested this species and application combination and it works. It is covered by our product promise.

Expected

We have not tested this specific species and application combination in-house, but expect it will work. It is covered by our product promise.

Predicted

This species and application combination has not been tested, but we predict it will work based on strong homology. However, this combination is not covered by our product promise.

Not recommended

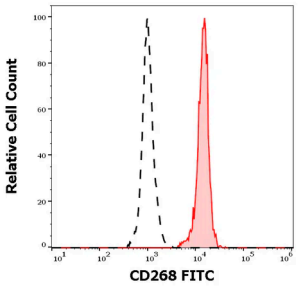

We do not recommend this combination. It is not covered by our product promise.

We are dedicated to supporting your work with high quality reagents and we are here for you every step of the way should you need us.

In the unlikely event of one of our products not working as expected, you are covered by our product promise.

Flow Cytometry - FITC Anti-BAFF-R antibody [11C1] (ab326481)

BAFF-R Flow Cytometry staining of human peripheral whole blood using mouse Anti-BAFF-R antibody

Separation of human CD268 positive lymphocytes (red-filled) from CD268 negative lymphocytes (black-dashed) in flow cytometry analysis (surface staining) stained using ab326481 (10 µl reagent / 100 µl of peripheral whole blood).

Flow Cytometry - FITC Anti-BAFF-R antibody [11C1] (ab326481)

BAFF-R Flow Cytometry staining of human peripheral whole blood using mouse Anti-BAFF-R antibody

Flow cytometry surface staining pattern of human peripheral whole blood stained using ab326481 (10 µl reagent / 100 µl of peripheral whole blood).
